

ABEKO N10S/N15S
ORDER PICKER

"Two in one." Very quick counterbalanced truck for standing driver. Intended for picking at the first level; however, with a lift height up to 4900 mm, it can also be used for stacking. Low step-in and stepping on and off from both sides makes this a very efficient low order picker. Drive controller in the direction of the forks is an option that is much appreciated.

CHARACTERISTICS

- Lifting capacity 1000/1500 kg
- Lift height up to 4900 mm
- All masts have clear view frame
- Integrated mast damping
- 3 kW drive motor AC
